Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 June 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Drawings

1. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

It appears that the drawings in the PCT application were not filed with the national stage entry of this application.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 30 and 31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Higgins (US 4,063,401) in view of Develog (DE 90 01 319).

Higgins discloses the invention as claimed including positioning tension fingers 38, immediately adjacent each of the corners, at an inner position above load 22, gathering the hood 24, into a plurality of vertically stacked folds, and fitting it over the fingers with the open end of the hood facing downwards, spreading the fingers outward

Art Unit: 3721

away from the load to an outer position, spaced from the load and stretching the hood, moving the fingers downward such that the hood is drawn over the wrapped load (see Figs. 2-4 and C3,L3-65). What Higgins does not disclose is the movement of the fingers to an intermediate position as the film is drawn over the load. However, Develog teaches that it is old and well known in the art of wrapping to provide tension fingers 11 for holding a wrapping hood 25, where the fingers are moved toward an intermediate position located from a fully extended position for the purpose of drawing a hood over a stacked load (see Figs. 4 and 5).

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to have provided the invention of Higgins with the arm movement means as taught by Develog for the purpose of drawing a hood over a stacked load.

Allowable Subject Matter

4. Claims 20-26 and 29 are allowed.

Response to Arguments

5. Applicant's amendment to claim 26 distinguishes the claim over the prior art of Higgins and Develog.
6. It appears that the drawings were not submitted in the amendment filed on 6/13/2006.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
